## MELWA PARTNERING FABRIMETAL

Melwire group (MELWA) a company with global reach, partnered Fabrimetal Ghana in establishing and pioneering the local manufacturing of High tensile FAB 500 TMT rebars.

A thriving partnership since 2016 .

**M**ELWA Sri Lanka's premium steel manufacturer has been revolutionizing the Sri Lankan infrastructure landscape, since its inception in 2002. A 100% Sri Lankan owned family business, that is dedicated to provide quality steel products, whilst steering ahead as a major player in the Sri Lankan economy.

Operating under the brand name MELWA, the company plays a major role in supplying to the construction and infrastructure industry, whilst being the most sought after brand by local and international companies in and around South Asia.

A production capacity of over 500,000 MT annually, expanded with a first of its kind in Sri Lanka –state of the art facility in 2018, encompassed with ultra-modern technologies to manufacture some of the most demanded products used across the world today (mainly QST Re-bars, GI Tubes & pipes) . Product quality is achieved through utilization of advance manufacturing processes, advance monitoring and testing procedures, equipment of every stage of production cycle, adhering with local and international standards, the entire production process from raw material to the finished product is checked to ensure excellence within the line of products and the services.

Currently, the MELWA brand is stamped across its wide portfolio of products, which has made it the most established and preferred brand in the industry, providing the assurance of high quality through its strength, safety and most importantly durability. With all these capabilities, MELWA has been able to secure its position as the market leader and the largest steel manufacturer in Sri Lanka.

On its over 20-year long journey MELWA has touched the lives of every Sri Lankan in one way or another, and it is merely the impact they hope to make across the world. While contributing to the growth of the national economy, MELWA strives to become the leading industrial group in Sri Lanka supplying construction materials such as steel, gypsum, plywood, tile, cement, etc. By today MELWA is diversifying its portfolio into various fields, such as industrial, hospitality, pharmaceutical and tea.

MELWA continuing its journey in setting the benchmark for quality and technological transformation, partnered with FABRIMETAL GHANA in 2016 , to produce High Tensile steel of International quality. Expanding its global foot print, MELWA along with FABRIMETAL GHANA is committed to uplift the lives of the Ghanaians and the lives across the world in the years to come.
